

PRODUCT BRIEF

FREEWALL QB

FEATURES & BENEFITS

- ◆ Freewall QB creates zones without the need for solid walls, giving a light and open feel to a defined space.
- ◆ Sturdy design that ensures all horizontal and vertical lines are uniform and consistent.
- ◆ Based on a starter & extension principle, this system avoids doubling up of sides and offers an even appearance throughout.
- ◆ Combine the frames with the use of sound absorbing fabrics and natural planting to improve wellbeing and productivity.
- ◆ Frames are designed to sit on the floor or be mounted on top of Freewall pre-assembled base cabinets.
- ◆ A broad selection of accessories and inserts is available, the configurations are endless!

DIMENSIONS

- ◆ A single starter module is 450mm deep and 450mm wide, each subsequent module adds 425mm to the length of the run.
- ◆ A double starter module is 450mm deep and 875mm wide, each subsequent module adds 850mm to the length of the run.
- ◆ Up to 5-cube levels high, the available heights are 450, 875, 1300, 1725 and 2150mm.

WARRANTY

- ◆ 10 years (2 years on non-static components).

Start planning

Ready to get started? Designing a Freewall QB layout is easy. The modules come in 5 different levels and it's supplied as starter and extension blocks, which eliminates the duplication of vertical uprights.

The initial footprint for a **single** module is 450 x 450mm and each added module increases the run length by 425mm. Also available are **double** modules which take the space of two single modules.

There is no limit on the extension or shape of the runs, which can be combined to form bridges, corners and islands.

FLOOR-STANDING

Build the QB frame straight onto the floor, adjustable feet anchors can be supplied to ensure the run is properly secured to the surface.

OVER BASE CABINETS

It is possible to add the QB frame on top of Freewall's pre-made base units for a combined run of lower storage and upper shelving!

Choose the right accessories

A broad selection of inserts and accessories can be added to the frames, for both single and double modules.
